

COMING SOON! A tool to help you manage and optimize your home wifi network: The Plume Solution

We have been test-driving the exciting new Plume home-network software that is designed to help solve challenges many of you have contacted us about:

1. Robust parental control tools specific to each device
2. The ability to prioritize bandwidth to a certain device and optimize your home network as a whole
3. The ability to run speedtests on each device connected to the home network from one application

This is just *some* of what Plume can do. Positive feedback at a recent limited demo means we'll be holding another **informational session** for those who'd like to learn more. **Follow us on Facebook** for additional details!

FAQs: www.ebbhelp.org

La Motte & Andrew Telephone Companies are participating providers.

7th Annual Herky Hustle Tailgate & Chili Cookoff: September 11th, 2021 at the La Motte Rec Center. Please provide chili 1 hour prior to game. Tailgate 2 hours prior to kickoff.

**You Can't Afford to Cut
a Fiber Optic Cable**

CALL BEFORE YOU DIG

La Motte/Andrew Telephone Company has put many miles of new fiber optic cable in the ground in recent years—don't assume you know where the cable is!

Damage to fiber optic cable can quickly add up to \$10,000 or more *per incident*.

Do your part to help us protect the underground utilities that we all rely on: Call Iowa One Call before you dig: 1-800-292-8989.
